

GP services online – a how to guide

To begin online services with your GP surgery you will first need to check whether they offer online services and what these services are. To do this you will need to:

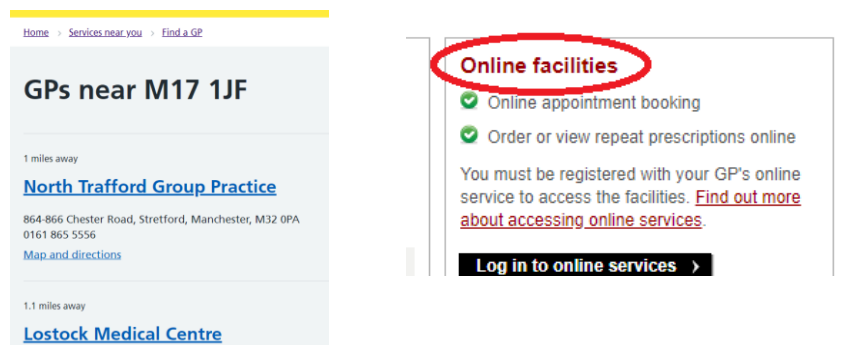

1. Visit the NHS website and select the **Services near you** option

2. Next you need to select the **GP** option, and type your postcode into the **search box**, once typed click the **search button**

3. You will then see all of the available GP surgeries within your postcode, scroll to find yours and click that option

4. Once you have clicked your chosen GP surgery you need to look for the section which details **Online facilities**. Here you will see what online facilities your GP surgery has available.
5. To sign up for online prescriptions with your GP you will then need to follow their specific surgery guidelines to requesting your prescription online or making appointments online.
